OBJECTIVE

Passionate Web Developer with a background in Computer Science and hands-on experience in building responsive, user-focused web applications. Skilled in HTML5, CSS3, JavaScript, and modern front-end frameworks like React.js, along with styling tools such as Bootstrap and Tailwind CSS. I also work with SQL for data management and Firebase for backend services. While my programming skills are growing, I maintain a strong focus on writing clean, optimized code and delivering intuitive, high-performance solutions. Always eager to learn and adapt, I strive to contribute effectively to innovative and impactful digital experiences.
